ABOUT ME

Passionate about paving a successful path in the IT sector by consistently learning and mastering new technologies. Aiming not only to augment my skill-set, but also contribute substantially to the organization's progress through my knowledge and skills. An enthusiastic team player seeking opportunities for professional growth and knowledge enhancement.

WORK EXPERIENCE

WIPRO
Bangalore
Mar 2023 - Present

Project Engineer

1. Worked on CRM tool using PHP, gained some valuable insights on payment method integration.

2. Upskilled on JavaScript, NodeJS, ReactJS.

PROJECTS

URL Shortener App

Built a URL Shortener application using NodeJS, express, MongoDB. A user can copy the actual url and get it shortened.

For this I have used shortID package and also connected it to the No SQL databae i.e MongoDB.

SKILLS

C++	JAVA
JAVASCRIPT	HTML
CSS	REACTJS
NODEJS
